Editor's Desk

Hello and Namaskar.

This 20th Issue of our Quarterly Newsletter VSM CONNECT comes to you with the blessings of Lord Ganesha whose festival we just celebrated in a much better environment all around. The curtailment of fresh cases of Corona infections, rapid vaccination and faster patient response have made a positive impact overall and has helped all of us to look forward to better days ahead, provided we exercise caution & observe Corona appropriate norms without compromise.

VSM has been running a donation campaign since the last 3 years – "Utsavatoon Samajakade" (From Festivities to Society) and this year too we are conducting a donation drive virtually through the months of festivities i.e. starting from Ganapati Festival and ending by Diwali. All of you must have received our appeal for this campaign and we earnestly request you along with your friends, relatives, colleagues in work places to contribute handsomely for this noble cause.

On the academic front too, things are looking better with Entrance exams for professional courses taking place and other professional examination schedules being announced; with a glimmer of hope that schools/colleges may move to offline mode from next year.

The current issue of VSM CONNECT covers the following topics:

- Main Feature: "Evolution of VSM's Career Guidance Teams" – Fine Arts, Commerce and Social Work teams
- Side Feature: VSM's 13th Vardhaapan Diwas (Foundation Day) celebration on 15th August 2021
- VSM Alumni Corner
- Other regular features such as Calendar of Events and VSM in numbers.

We keenly look forward to your valuable suggestions for making this Newsletter better & more meaningful and build a bridge between VSM and the Donor/Well-wisher community.

Till we meet next in January 2022, we wish you & your families a Happy Dussehra and Joyful Diwali!

Thank you.

Main Story

Fine Arts Team

While Vidyadaan Sahayak Mandal's Fine Art and Applied Art branch came into being in 2012-2013, it was not an independent branch then. I (Radha Ambekar) was teaching in Raheja College and a student in my class was being funded by VSM. Though I didn't have much knowledge about the organisation at that time, there was a curiosity within me to know more. It was the first time she had taken a recommendation letter from me. And that's when several questions came into my mind. What was this organisation which was paying for the education of the economically backward students? Who are the people behind this organisation who were concerned about educating these children? However, in the present times, there can be no better charity than when an organisation comes forward to

help these students stand on their own feet by facilitating their education.

In the year 2014, I garnered all the information about the organisation from my sister who was associated with VSM for a long time as a volunteer and a mentor. She informed me that if I ever had a student in my college, who required financial aid, the organisation would help them. I already had faith in the capability of some children and immediately began suggesting names of students who needed help. This move saw the formal commencement of the art branch. In 2015, more students from fine art were enrolled in VSM. In these two years, I only played the role of recommending names of deserving students and had not yet got involved as a Volunteer.

Pot Art by VSM Fine Arts Team

I was truly drawn towards the noble working style of VSM and the family kind of bonding and great determination of the organisation and in 2016 I joined them as a Volunteer & Mentor. The students were getting good counselling. I could see the change in the students' demeanour- the way they talked and behaved had changed. They were brimming with self-confidence. In 2016, 9 new students from Raheja School of Arts found their way into VSM. These students were also intelligent and hardworking. In fact, couple of them even participated in numerous University level competitions and won international awards. During the COVID lockdown, they won four prizes in an online competition organised by IIT Mumbai. Few others were also among the students who won laurels in various competitions. What's more, on the completion of their course, they also bagged lucrative jobs. They continue to

hold responsible positions in their respective jobs. This gesture of helping them financially and emotionally talks volumes about the faith the organisation has in the student. In January 2019, VSM sponsored students for a summit in Indapur called Aakar Pot Art and the entire cost of the travel and stay of the students was taken care of by VSM. Twentythree students benefitted by this summit. They created beautiful art from soil on the topic of Majhe Pratibimb (My Reflection). The experience was an enriching and memorable one for the students.

When Poonam Pandit and Vaishali Saraf joined Fine Arts Career Guidance Team, there was a renewed vigour in the organisation. It was during this time that the organisation introduced the concept of ALPS Goals, which proved very helpful to the students. Several sessions were held to widen their perspective – like

Work of Fine Arts Student Sagar Aeer

encouraging them to read books, have open discussions, put across their views on various topics, encourage English speaking, as also guiding them about the use of technology in the field of art. They are definitely benefiting from these sessions & learning soft skills.

The students continue to do internship and freelance work along with their studies and have ventured into diversified fields such as short films, designing, landscape drawings/paintings, Wall murals etc. Even if VSM is paying for their education, they are trying to be financially independent and helping their families economically with the help of art. However, while they continue with their career pursuits, the Career Team is always analysing their academic progress. They are aware that neglecting their studies will not be encouraged.

Recently, under the guidance of Mr Kishore Gonate, the students put their hearts into the creation of the new logo for VSM which was unveiled on 15th August 2021. Many students of the Fine Arts department have also taken responsibility of the organisation's social media and are in the forefront when it comes to VSM's various social media designs.

With the presence of 19 students currently, we are looking at a strength of another 10/15 students for the next academic year 2021-22. The Fine Arts department is growing by leaps and bounds with every passing day. It is a source of immense joy for the Fine Arts Team to witness the seed of art blossom into the wish fulfilling tree.

Dipesh Panchal's Water Colour with Certificate

Commerce Career Guidance Team

VSM has been attracting a large number of students right from inception for a career in Commerce stream. In the earlier years more than 50% students were from Shahapur & Murbad Talukas and for them earning a job and getting some financial stability was of prime importance. Thus, the Commerce Career Guidance Team came into force in 2017-18 with 4 team members. There were about 45 to 50 commerce students in total.

In the very first year, we had started with a Career Counselling workshop for all students to make them aware about the various career options. To follow up on this, one to one counselling was done only for 12th and TY students. Few students were offered PGD courses. Students aspiring for Govt Jobs were given coaching by our In-house faculties.

The following year, we started individual one on one counselling for all students.

Doubt solving sessions were conducted not only at Thane but Shahapur too by visiting Shahapur on week-ends. Students were made aware of job opportunities in the Public sector. More emphasis was given to prepare students for competitive exams in Banking, Insurance etc. Nearly 30 students took advantage of these sessions and a few were able to clear entrance exams. Mock interviews were arranged for final year students.

Moving forward, we were more elaborate in our approach. Based on academic performance and add-on skills, students were categorized into average, above average and outstanding levels.

Average -

Students securing B+ grade. Few students in this category were offered vocational course, along with completing B Com. Other students were placed with CA/Financial/HR/Legal /Tax consultants for doing part time jobs in & around Thane.

Banking Exam Class in progress

Above average:

A grade students. These students were counselled to go for Self-financing courses (BAF, BBI & BMS) in colleges offering good placements.

Outstanding:

Students in this category were counselled for professional courses. e.g. CA, ICWA, CS etc.

In order to pursue further education in good colleges & to work part time, students from Shahapur were accommodated in Thane hostels. Other activities for grooming students continued.

While doing all this, we observed that students pursuing Plain B.Com. were finding it difficult to get good jobs after graduation. Thus, the main challenge was to find job-oriented courses offered by reputed institutes. We were about to begin our hunt for such institutions, but unfortunately due to the Pandemic our activities got a setback. However, we converted this challenge into opportunity

with the help of a digital platform. It was actually during this Covid period that the Commerce team evolved in its true sense. Students too have taken maximum benefit of our below mentioned online courses:

1. Online lectures for 11th std to SY B.Com. through external and in-house faculties.
2. Internship modules for SY/TY students including soft skills, grooming for interviews and offline exposure in industrial and commercial practices essential from job perspective.
3. Computer skills sessions - Students were trained in MS Office, Tally, Internet concepts, PPT etc.
4. Coaching for Bank Exams was conducted throughout for Maths, Logical reasoning and English.
5. A special session on strategy to crack exams for Government Jobs was conducted by Shri Suhas Patil, Retired Assistant Commissioner of Central Govt's Excise Dept.

Commerce Students Orientation Programme

6. Financial literacy workshop for Basic banking and various social schemes floated by Government were explained.

Due to all these efforts taken for overall progress and development of students we have pleasure in stating that Our 6 students completed CA intermediate and are pursuing final level, 1 student competed CS Intermediate and is pursuing final level, 2 students successfully completed Travel Course and secured good jobs; nearly 10 students are employed in good firms/Companies and are earning decent salaries.

In the current FY 2021-22, learning from past experience, we realized the need to find out courses which would give more exposure in learning as well as ensure job procurement. We have now done research on various job-oriented degree courses and vocational courses offered by good Institutes and have personally visited these Institutes and working on this front.

We aim that after graduation, our students secure a decent job with a good salary, become self-reliant and support his/her family. VSM would also consider supporting them with relevant PG courses for ambitious and deserving students.

(Refer Page 10)

VSM Social Work Team

The VSM Social work team is one of our youngest teams, which completed one year in July 2021.

The 1st Social Work student was enrolled in VSM in May 2015 and gradually the number increased to 19 in 2020. The need for a dedicated team was felt to impart effective guidance to the students and the "VSM Social Work Team" was constituted in July 2020. The team started functioning under the able guidance of Dr. Veena Joshi along with Suvedh Jaywant, our young volunteer, who had been single handedly helping the social work students earlier.

As Suvedh had to pursue his higher education abroad, the team was reconstituted in June 2021 and now comprises Dr. Veena Joshi, Mr. Ramchandra Deshpande and Nayana Mallapurkar.

Presently, the total number of students are 24 (MSW- 19 & BSW - 5) pursuing their education across locations like Mumbai, Satara and Nagpur in reputed colleges like TISS (Tata Institute of Social Sciences), Nirmala Niketan, SNTD and Yashwantrao College of Social Work etc. Plans are afoot to enroll few more deserving students in this academic year.

Specific enrollment goals were laid down for 2021 admissions. In addition to the academic criteria, students were selected

based on their learning from field work, Internships & jobs, their confidence, oral communication skills and their passion towards social work.

Due to the corona pandemic, all the events of this new team had to be carried out virtually. Keeping students' interests in mind, events like explanation of Goals, celebration of World Social Work Day, arrangement of Impact Assessment courses and guest lectures by experts from Institutes/Companies were arranged. A talk from the founder of APSWDP (Association of Professional Social Workers and Development Practitioners) explained in depth about working in various social welfare domains. Knowledge and experience sharing about the Corporate Social Responsibility (CSR) was very well covered in the invited talk by Head of the CSR division at Forbes Marshal.

Internships and field work is an important part of the social work curriculum & the senior students are encouraged to share their experiences with their junior VSM students. Exit interviews of the outgoing students and giving a fond farewell to the passing out batch helps in experience sharing and sustained bonding with the alumni and this is part & parcel of the social work team.

To encourage students and build a research aptitude in students, The "Best Research Paper Award" was instilled & given to two students, in the memory of

Side Feature

The 13th Foundation day of VSM

The 15th of August is a special day for all Indians and for VSM and its members, the joy was doubled as the organisation celebrated its 13th Foundation Day on the same day. The online event, ably hosted by VSM alumni Gauri Vaidya and Bharat Kadam, was streamed live on Facebook.

The melodious rendition of the Vidyadaan song marked the beginning of the inspiring evening.

An air of positivity and new beginnings reigned as VSM unveiled its new logo. A group of creative minds - Apoorva Vaidya, Gorakhnath Jagtap and Shubham Sakpal headed by Mr Kishor Gonate and Radha Ambekar from the Fine Arts Team, had come together to create the brand-new logo. The motivating message – ‘Transforming Through Mentoring’, and the new logo will now be synonymous with the identity of VSM.

Ms. Dipali Sirpotdar took the floor then and presented VSM's Annual Report through a beautiful presentation of the year gone by. In the segment, titled, ‘Vaarshik Aadhava’, she analysed the challenging year 2020-21 by giving details of work being done in the area of finance and accounts, donor engagement, capacity building, the admission process, students’ hostels, media outreach, volunteer empowerment and nurturing of students during the pandemic through team events and interventions.

Next, it was the turn of the shining stars of VSM – its students, to take centre stage. VSM's proud alumni spoke about their achievements and lauded VSM and their mentors for their undying support in making sure they succeeded in their educational pursuits and instilling in them the need to dream big. This session was conceptualized by Dr Anita Mokashi, Dr. Archana Damle and Vinit Dhupkar from Medico and Science Teams. Some students who spoke were Jayesh Dhanke from Shahpur Taluka, who is currently in his final year of CA; Gorakhnath Jagtap – who works in an advertising agency,

New VSM Logo

Yogesh Tembe – an engineer working at the cyber security company, Forcepoint; and Ashwini Kamble – who has joined the celebrated institute TISS to work in the area of women empowerment. She is also the recipient of the prestigious Meenakshi Apte Puraskar for her work in gender equality. The highlight of this part of the evening was the mention of Vaishnavi Kulkarni, a VSM Engineering student, for having bagged a Rs. 23 Lacs package at the multinational investment bank, Goldman Sachs. No mean achievement, indeed!

As the wonderful evening progressed further, the baton was handed over to the veritable backbones of VSM – the Karyakarta Palaks (KP), or mentors. Ms Jyoti Patwardhan and Ms Meera Bhagwat graciously preceded the session by narrating interesting anecdotes dating from the time the concept of KP originated to their present objective, Mission Chala Karyakarte Joduya (Come, let's add more volunteers). This, they felt,

was the need of the hour to bring more and more deserving students into the ever-expanding VSM fold.

The podium was then made available for some new mentors to share their experiences of their association with VSM. The new KPs, Ms. Pallavi Muley, Mr. Virendra Gharat, Dr. Geetanjali Chitnis, Mr. Tushar Khaire and Mr. Vaibhav Pandit, have become cherished members of the VSM team in a very short time, and as mentors, are involved mind, body, and soul for the cause of the organisation and its students. It is interesting to note that both Tushar Khaire and Vaibhav Pandit are themselves VSM alumni and have made an awe-inspiring transition from mentees to mentors.

Awards are doubtlessly an essential part of any ceremony. It is a wonderful way to endorse and encourage people's achievements and hard work in any given field. And VSM, which has been tirelessly working towards motivating deserving

Nurturing Students

Nurturing process at VSM

and deprived children to adopt the path of education, has instituted the Late Gopal Athavale Best Research Space Paper Award under the Social Work Outstanding Awards Series. The evening saw VSM veteran Dr Veena Joshi present the coveted award to Ms Durga Sudhakar Mandhare from MSW for her paper, titled, 'Study of the Mentally Ill People from Yavatmal and Ghatangi Talukas'. The second recipient of this prestigious award was Mr Chetan Bhaskarrao Nandadhare from MSW 1 for his paper, which was also published in Vidyavarta, a multi-lingual internationally referred journal.

Further, two different voice overs in Marathi and English were heard. They spoke about Mission 2021, an initiative of VSM focusing on the idea of 'Festivities to Society- Utsavatoon Samajakade.' The momentous evening saw the launch of Mission 2021, even as the program

coinciding with Ganeshotsav season was announced.

As VSM members went down memory lane, reminiscing about the humble beginnings and growth of VSM, it was a proud moment for all to realise that the organisation had expanded its noble activities to six branches all over Maharashtra! Mr. Subodh Jathar, member of the manging committee, concluded by laying the roadmap for VSM by reiterating the urgent need to focus on areas like digital technology, career guidance teams and skill development.

Vaibhav Pandit Legal Team Lead

Reviewing The Year

- Extraordinary year
- Posed several challenges on physical meetings, admission process, academic support for students etc.
- We responded to the challenges with resilience and renewed vigor

Year characterized by

- Introspection and insights
- Realigned processes and policies
- Digital empowerment
- All meetings online for better reach and frequency
- Several interventions focused on student development to make best use of the opportunity at hand

Varshik Adhava

Alumni Corner

“Cheers to those who stayed behind.” – By Nikita Chitre

In 2015, I completed my B.Sc. in Chemistry from Mumbai University. I got acceptance to the M.Sc. (Chemistry) program at the Institute of Chemical Technology (ICT) Mumbai, formerly known as UDCT. It was a great opportunity, but with the family and financial hurdles, it looked like a distant dream to be a Scientist. Fortunately, my professor from Birla College introduced me to Vidyadaan Sahayyak Mandal, Thane (VSM).

I still remember that day in 2015, when I visited VSM's Khopat office. It was past office hours. Still, Geeta Mavashi and Swati Mavashi stayed behind. At the end of our meeting, Geeta Mavashi told me, “You are now a part of the VSM family.” I didn't get the meaning of this at that time but realized it much later.

VSM has played a crucial role in my life. During 2015-17 at ICT, I was blessed to have a KP like Mandakini Salvi Mavashi

and Govekar Mavshi. Later, while relocating to Andheri for my job, she helped me in my search for a rental place. I always get the same warm welcome every time I talk to her.

VSM instilled in me a sense of responsibility and accountability. I was very fortunate to stay at VSM's girl's hostel. It saved me much needed time to manage the heavy academic load at ICT and the hassle of traveling. Every weekend, KPs came to hostel to teach us Yoga. Looking at them and their efforts to bring out the best in us, I felt assured that “Life will get better.”

VSM gave me my first opportunity to go for a Shram-Daan Shibir. I travelled to Chandrapur with other VSM students for Shramsanskar Shibir at Somnaath Camp. Keeping our beliefs and prejudices aside, we helped to construct small dams and worked as a Team towards one common goal. This was my first experience of giving back a little to the society. It made me realize that one doesn't need to earn a fortune to give back to the community. A

Nikita at ICT Convocation

Nikita with her Mentor Mandakini Salvi

small step, helping someone to cross a road, gifting a student a good book, volunteering at a social event can serve the purpose; all that counts is our wish to help each other.

VSM brought "Be frank" in my life, a platform created by VSM students for students. It gave voice to my thoughts, a place where I could express my opinion. VSM has always been the place where I can find myself and learn to be a better version of it.

After M. Sc. at ICT, I got placement in R&D division of BEC Chemicals, as a Junior Research Associate. In 2018 I received the "Rising Star Award" at BEC.

I have now shifted back to academics. I started working on a project with a professor at IIT Bombay. Within 9 months, I decided to pursue my Ph.D. and applied for a joint Ph.D. program hosted by IIT Bombay and Monash University Australia. Through a rigorous procedure of exam and series of interviews, I was selected. In January 2020, I started my Ph.D. in Material science at IIT Bombay. Here, I have the space and freedom to shape my career and myself as an individual.

Now fast forward to 2021, when my mother was critically ill. I got every possible help from my fellow VSM Alumni. VSM Alumni Paresh Patil, and his family were always by my side in J.J. Hospital, Mumbai, even when my relatives could not visit us. Tejal Daundkar – another Alumni, was of great help with her

contacts at J.J. Hospital. My mother recovered and safely returned home. At VSM I always feel at home, knowing I have people to rely on from my VSM family.

Steve Jobs once said, "You can't connect the dots looking forward; you can only connect them looking backward. So you have to trust that the dots will somehow connect in your future."

Looking back, I now realize, reaching this stage of my life was made possible because one day Geeta Mavashi and Swati Mavashi thought of staying back after office hours to interview this girl, who was all set to give up on her dreams. And I am thankful they did, hence "Cheers to those who stayed behind...!"

Nikita today at IIT Mumbai PhD programme

Alumni Corner

“VSM transformed me and made me hungry for education.”

“When you connect to VSM, you keep connecting to good people.”- Anand Sapate

I am Anand Gurunath Sapate. During 1970 the drought period, my grandfather migrated from small the town of Kevad in Beed district of Maharashtra to Thane, seeking better means of livelihood. I am born and brought up in Thane. My father has 30% disability, so he works as a watchman and mother works in a grocery shop. I studied in Maharashtra Vidyalay, Thane. After 10th I went for Commerce, willingly supporting myself by doing odd jobs such as a watchman, courier-boy etc. I had no career plans. I just wanted to get a B. Com. degree and help the family household. However, in the Second year of college it became evident that my modest dream might not be fulfilled, without financial support.

Earlier Be Frank Session in 2015

VSM came to my rescue and I could complete my course. VSM gave me much more than just financial aid. They became my family, and each member of VSM family taught me an invaluable lesson. My first KP was Bhau-Ajoba Nanivadekar. He taught me punctuality, proper documentation and accounting, financial discipline, focus on goals, good manners, speaking skills, focusing on subject, clarity of expression, being firm yet soft in presentation and self-reliance. Bhau-Ajoba insisted that “I earn while I learn” and helped me get a part-time job of “Facility manager” in his society. It was an enjoyable journey. I made many friends at VSM through monthly meetings and at hostel. My school friend Karan Pardeshi and I started a “Gappa” program with students at VSM hostel, which eventually turned into a themed program of activities. Thus “Be Frank” was born! Initially, this was a platform for students to share our experiences, feelings, thoughts. Now it has become a “movement”! “Be Frank” is now conducted at all 6 branches of VSM (currently through virtual platform), and has also reached many schools in Shahapur and is loved by the children! The credit for this great initiative goes to “Be Frank” team of VSM students, as well as their KPs. Their guidance, appreciation and encouragement made this novel idea blossom into an effective tool to explore creativity, talent, sharing of ideas and learning.

When I passed B.Com. in 2012, I had no clarity about my career path. So I did different kinds of jobs: at call center, insurance salesman, educational book-seller, sales officer at ICICI Bank, and in a CSR department of a company. I was confused, and again VSM came to my rescue! In 2017, after one of VSM's monthly meetings, Geetatai Shah made me sit down and think and discussed with me the options I could pursue. She made me focus on finding my own path, connected me with Adititai Pandit of VSM Pune branch. She asked me do my own SWOT analysis and I realized that I had the skills and desire to work in CSR field. So I enrolled for Part-time MBA at NMIMS, Mumbai and in 2020, completed MBA in Social Entrepreneurship. I am thankful to VSM for steering me into the right path and helping me explore my hidden potential. Presently, I am working as a Manager for Jai Vakeel Foundation. This NGO works for schools for individuals with intellectual and developmental disabilities, all over Maharashtra.

I am an avid traveler! I love to explore places and people all over India on bicycle.

Anand Sapate with Be Frank Team

My journey is my destination. I write my travel blog "firasti" (<https://www.firasti.in>) and have launched my YouTube channel. I continue to explore different shades of life through these journeys. My journey to explore myself and life around me began in VSM and VSM will always remain a guiding post in my continuing journey!

VSM's taught me the meaning of social work: to make everyone "self-reliant." This was the inspiration for the VSM song I wrote for Vardhapan Din which was beautifully composed by my VSM friend Saurabh Joglekar. VSM made me a lyricist.

As Dr. Anand Nadkarni Sir described in "Vedh" workshop, every individual has a personality. An NGO is a playfield (Angan) given to her/ him to experiment, fall, get up, learn and experience the joy of life. VSM has brought such a joy in our lives!
